# Trend Strength Indicator

Copy the file Trend Strength.ex4 to your Meta Trader **experts\indicators** folder

For example: if your Metatrader 4 is installed at C:\Program Files\ Meta Trader 4

Then the **indicators** folder should be located at C:\Program Files\ Meta Trader 4\expert\indicator

Start Meta Trader 4 and from the top menu, choose Insert -> Indicators -> Custom -> Trend Strength or drag it from the Navigator Panel on the left hand side onto the chart window

And here is how the indicator looks like

This indicator tells you the current strength of the trend. You will see two lines, the first one is the up trend strength, and the second line is the down trend strength. If the up trend strength is at least 70%, the trend is in strong UP state. If the down trend strength is at least 70%, the trend is in strong DOWN state.

Good luck
